John,

Thanks to the reviewers. They picked up a number of good points. I have attached a word file which contains responses to the reviewers comments. There are a couple that remain unresolved or for which my new wording may or may not fully address the concern voiced by the reviewer. Please have each of the reviewers take a second look.

You may download Version 2 by clicking on the link below.

https://netfiles.uiuc.edu/xythoswfs/webui/_xy-41805148_2-t_FKEIWA91

Let me know if there are any problems with it.

As I said in my covering e-mail when I sent in version 1, I am fully aware that the deck contains a lot of slides for the time allotted. I intend to go through the first half of the deck -- the background on safety assessment and DNA changes that occur in plant breeding -- rather quickly, often one sentence per slide. I think it can be done.

Regards

Bruce

John

I have the file. It opens and appears to have transferred ok. Will let you know if I have any questions.

Hi Bruce,

We sent the file by IntraLink and you should get an email from IL Courier. It requires that you login with your email address and create a password.

Let us know when you get it or if you have any issues.

Thanks,

John

Hi Bruce,

I may have to send your reviewed presentation with comments using a data stick and FedEx. For reasons too complicated to even try to understand, I cannot send the file via a website or email. However, Eric said he has a new tool and we will give that a try first.

Meanwhile...

Overall, everyone is pleased with how the presentation turned out. The one overriding concern is the length. You do have 70 minutes, 50 for the talk and 20 for questions, but due to the language barrier some fear it may be a bit long. However, as many of the slides are general you likely will be able to fly through those. We are leaving it up to you. If you are comfortable with the length then great. There were some minor changes in text and they are indicated in red. Jay and Chrissy had some comments for you to address.

I will forward the reviewed version to China with some of the changes incorporated.

Once you receive it and if you have any additional updates, please forward them to me so I can update them.

Thanks,

John

I did not.

I thinkk my presentation is too large to e-mail.

You need to use Dropbox or some other password protected mechanism that allows you to place it on a website for me to download.

Hi Bruce,

I had technical difficulties yesterday with my email and I need to confirm that you received your reviewed presentation.

Thanks

John
