

12/6/95

UNSUBS;
VANCE PAUL BROCKWAY - FEDERAL INMATE (DECEASED);
FEDERAL TRANSFER CENTER (FTC),
OKLAHOMA CITY, OKLAHOMA;
AUGUST 21, 1995;
CGR - POSSIBLE MURDER
OO: OKLAHOMA CITY (OC)

On 12/6/95, James F. Bogner, Assistant Special Agent in Charge (ASAC), FBI, Oklahoma City (OC), was advised by Acting Unit Chief Robert Marinaro, IT/GRC, that this investigation was to be handled in an expedited fashion. SSA R. L. Hunt, FBI OC, was also apprised of the expedite status to be afforded this investigation.

The case Agent, SA Jeff Jenkins, advised that all auxiliary office leads in this investigation have been covered, and he is awaiting results of analysis of several items submitted to the FBI Laboratory (Lab). According to SA Jenkins, it is unknown at this time if Brockway's death was a suicide. SA Jenkins will meet with the Oklahoma County Medical Examiner on Friday, 12/8/95, to discuss the case and obtain a copy of his report. SA Jenkins has determined that the medical examiner's findings will probably rule that Brockway's death was a homicide. SA Jenkins has taken the medical examiner's investigator, Kevin Rowland, to the victim's cell once, and they are scheduled to go once again this week. Based on this information, it appears that the medical examiner's report will contain information from the autopsy and investigation conducted at the crime scene. A copy of the medical examiner's findings will be included in OC's investigative report.

The case Agent will meet with the Assistant United States Attorney (AUSA) assigned to this case on Friday, 12/8/95, to apprise him of the results of all investigation conducted to date. SA Jenkins stated that the new Warden at the FTC will not allow any of the guards/officials to take polygraph examinations. The prison guards are represented by a strong union which will probably also object to their members taking a polygraph.

SA Jenkins will forward a copy of his investigative/prosecutive report to CID after he meets with the AUSA and upon receipt of Lab results.

NOT APPROPRIATE FOR DISSEMINATION TO THE PUBLIC.
